

**Effective Friday, March 11, 2011**

The Amateur Softball Association of America (ASA) is the National Governing Body of Softball in the United States. As part of the ASA Bat testing and Certification Program, bats submitted for testing are issued an ASA certification mark if the model satisfies the ASA Bat Performance Standard.

ASA routinely and randomly audits compliance with the ASA Bat Performance Standard by testing samples of certified bats. In addition, ASA takes efforts to ensure that the ASA certification mark is not being used on bats that are not certified.

Until further notice otherwise, bats of the following models containing an ASA certification mark are no longer allowed in ASA Championship Play unless they contain the following ASA recertification mark:

Manufacturer	Model		
Anderson	Techzilla Reborn	Miken	Ultra (Maxload)
Anderson	Rockettech Reloaded	Miken	Ultra II

Miken	Orange Recoil DFR 250	Worth	XRed
Miken	Ultra		

The Alameda Recreation and Park Department has the right to ban any bat. Once a bat is put on the list, it is banned forever, no recertified bats will be allowed. How the Alameda Recreation and Park Department will deal with illegal bats:

- A. Umpires will inspect all bats before game.**
- B. Unfit bats will be given to scorekeepers.**
- C. If bats that have been determined to be illegal bats before the game are taken out and put back in the game, the player using the bat will be ejected for un-sportsmanlike conduct for using dangerous equipment.**
- D. All City rules supercede ASA Rules.**
